

Want to be involved?

Financial support:

- Medical Needs Fund:**
All funds go toward providing necessary surgeries and medical care for the children.
- Child Sponsorship:**
To meet the child's daily needs until they are adopted.
- One time gifts of any size.**

Both short-term and long-term volunteers are always welcome. Volunteers with medical skills are especially appreciated.

Give with Confidence

We stretch your gifts and make a little go a long way:

- The foreign director and all foreign staff work at their own expense and receive no compensation from the Foster Home for their labor of love.
- Your money is multiplied as our Chinese staff search for organizations, foundations and other agencies to help with major surgeries. They work with local hospitals to get the best care for the best price.
- We are frugal, accountable and have open books.

New Day Foster Home
www.newdaycharities.com

There are thousands of abandoned Chinese children with physical handicaps growing up without the love of parents or the nurturance of a stable home. New Day Foster Home is devoted to alleviating the suffering and rejection in these children's lives. We take children with a range of correctable special needs, some requiring immediate and life-saving intervention. We give them the surgical and medical care they need to live healthy lives.

New Day Foster Home

Our facility can comfortably care for 21 children at a time. The children often come to us under the age of three months. They are immediately cared for by loving, trained nannies working three shifts a day. Each nanny cares for the same children each day so that they can bond and grow in the most nurturing and stable environment possible.

No matter how good our facility is, we realize it is no match for being in a family. We look for and train local families to foster our children after surgery. And, we do what we can to advocate for the children's adoption. Our work is not complete until we see each child leave with their own forever family.
